PROFESSIONAL SUMMARY

Certified, results-driven MERN Stack Developer with 3+ years of experience architecting scalable web applications and intuitive UI/UX designs. Expert in React.js, Node.js, and MongoDB, with a proven track record of delivering high-performance platforms like 15 Minute Exam (BCS Portal) and BashaBari (Rental Management). Certified by Ostad in MERN Stack development and specialized in AI-integrated workflows. Leveraging an MSc in Chemistry to bring analytical precision, algorithmic thinking, and complex data-handling skills to software architecture.

TECHNICAL SKILLS

Frontend:	React.js, Vite, Bootstrap 5, Redux Toolkit, i18next, HTML5, CSS3, Responsive Design
Backend:	Node.js, Express.js, JWT Authentication, RESTful API Design, Role-Based Access Control (RBAC)
Database:	MongoDB (Mongoose), MySQL, Database Optimization & Indexing
UI/UX Design:	Figma (Glassmorphism, Soft UI), Modern Dashboard Styling, Wireframing, Micro-interactions
Tools & Cloud:	Git/GitHub, Docker, Vercel, Render, Stripe, SSLCommerz Payment Gateways

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Unicorn Software and Solutions

April 2023 – Present

- Architected, developed, and deployed 5+ production-grade MERN stack applications utilizing Render and Vercel for cloud hosting.
- Optimized frontend build performance by migrating legacy configurations to Vite, reducing hot-reload times by 60% and improving overall asset bundling.
- Implemented i18next for multi-language localization support, effectively expanding application reach to international markets.
- Integrated secure, compliant payment gateways including Stripe and SSLCommerz with robust webhook handling and 100% security compliance.

Full-Stack Developer — Mid-Level Experience

Jan 2021 – March 2023

- Developed responsive administrative dashboards featuring modern Glassmorphic and Soft UI aesthetics, increasing user engagement metrics by 25%.
- Integrated secure JWT-based authentication and Role-Based Access Control (RBAC) to safeguard sensitive user and system data across multi-tenant platforms.
- Collaborated deeply within Figma to translate low-fidelity wireframes into pixel-perfect, interactive, and reusable React components.

KEY PROJECTS

- 15 Minute Exam | Comprehensive Exam Management System

React, Node.js, MongoDB, Bootstrap
- Built a specialized, high-traffic MCQ exam portal tailored for Bangladesh Civil Service (BCS) preparation.
 - Engineered a real-time countdown timer system, automated question-seeding logic, and instant performance analytics for students.
 - Designed the core curriculum modules, specifically optimizing data structures for subjects like Mathematical Reasoning & Mental Ability.

- BashaBari | Housing Rental Platform

MERN Stack, Express Controllers, MongoDB URI Security
- Developed a localized landlord-tenant matching application featuring location-based search criteria and dynamic filtering.
 - Enforced strict backend security measures, ensuring MongoDB URI protection, environment variable isolation, and safe database connections on local and staging environments.

- Pharmacy POS & HotelPro | Enterprise Management Applications

React, Redux, Node.js, CSS Animations
- Designed and engineered enterprise-grade management systems handling real-time inventory tracking, sales data logs, and hotel reservation logic.
 - Utilized Redux Toolkit for clean, centralized state management across complex data flows.

CERTIFICATIONS

- | | |
|--|--------------------|
| • MERN Stack Development Certification | Ostad |
| • Cybersecurity & Pen-Testing Foundation | Kali Linux Focused |

EDUCATION

- | | |
|--|-------------------------|
| Master of Science (M.Sc.) in Chemistry | Department of Chemistry |
| Bachelor of Science (B.Sc.) Honours in Chemistry | Department of Chemistry |
